<External Link> Sending a Document to File Transfer

1

**External Linking**

This upgrade makes it possible to link with the "File Transfer" and "File Transfer PRO" apps.

Use the link function after installing the "File Transfer" or "File Transfer PRO" app.

Install File Transfer from here → <https://itunes.apple.com/jp/app/patto-zhuan-song/id522640799>

Install File Transfer PRO from here → <https://itunes.apple.com/jp/app/patto-zhuan-song-pro/id571557534>

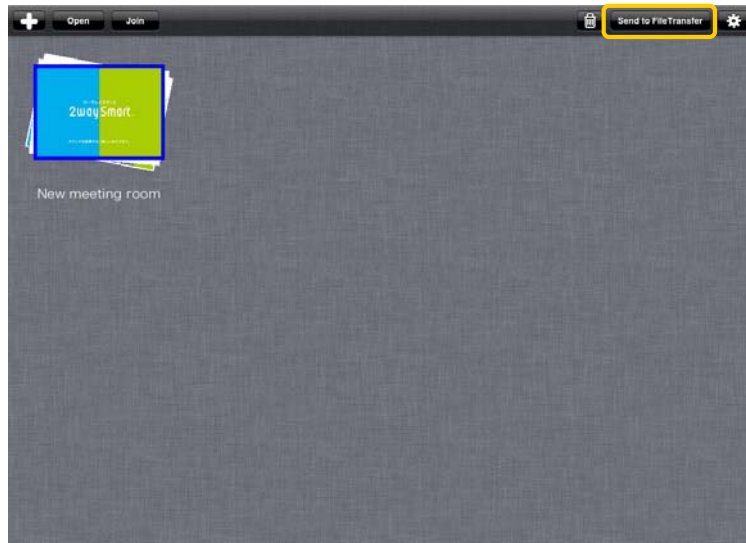

**Sending a Document to File Transfer or File Transfer PRO**

Tap to select a meeting room.

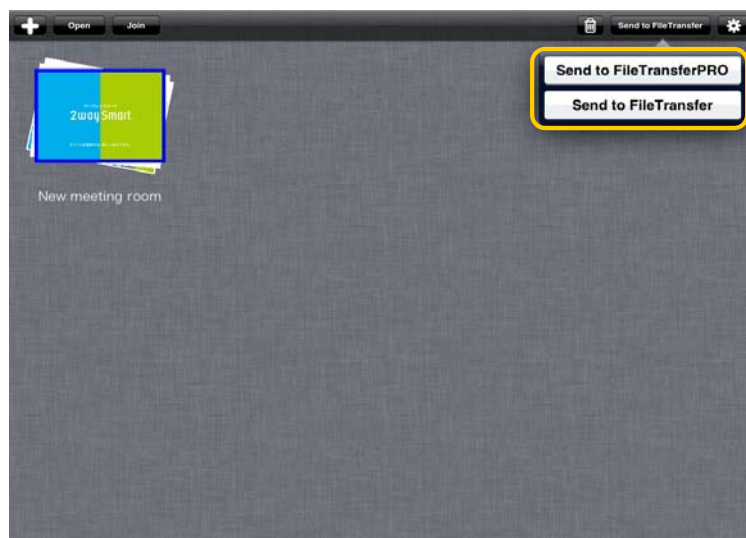

**Send to FileTransfer**

Tap the "Send to File Transfer" button.

Tap "Send to File Transfer PRO" or "Send to File Transfer".

File Transfer or File Transfer PRO starts.

\* For File Transfer, documents exceeding the upper limit for the number of folders cannot be imported. If you exceed the upper limit for the number of folders, please install and use File Transfer PRO.

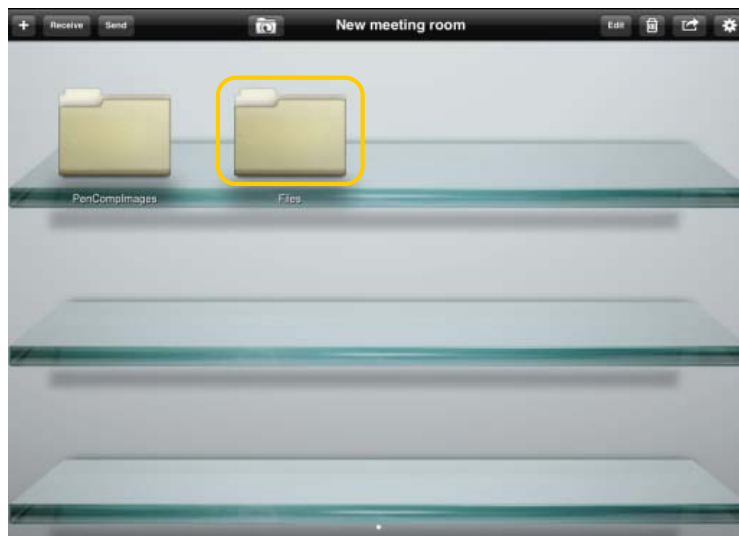

The documents are imported and a folder with the meeting room name is created.

Double-tap the folder.

Documents are stored in the "Files" folder.  
Documents on which the pen tool was used in a meeting are stored in the "PenComplImages" folder.

Double-tap the "Files" folder.

You can browse the imported documents.

Double-tap "PenCompImages".

You can browse the documents on which there is pen tool writing.
